“HyperMotion technology, first on console, delivers the most authentic, immersive and multi-dimensional football experience to date,” said executive producer for EA SPORTS FIFA 18 and EA SPORTS FIFA 22 Jeff Inglot. “We are on the brink of a new era of football evolution, and EA SPORTS FIFA is at the forefront of that change.” FIFA 22 delivers a more authentic and complete gameplay experience with all the features and controls you have come to expect. After just one play session, you will notice how faster the game feels and how intuitive it has become on the Xbox One X. The new cover system, refined balls and celebrations, and improved tactical formations like XIs and double teams have been added to create the most authentic football experience on Xbox One, but what really sets FIFA apart is the visual improvement and attention to detail from player movement, animations, collisions and aerials. ABOUT EA SPORTS FIFA EA SPORTS FIFA (www.easports.com/fifa) is a wholly owned subsidiary of the global digital sports publisher, EA Canada (www.easports.com/Canada). Fifa 22 Features Key:

- All-new graphical engine: Powered by the Frostbite 3 Creation Engine, this all-new graphical engine creates more realistic stadiums, new faces and crowds, and gives more control over the individualized player models, a player's presence on the pitch and his interactions with the ball and the action on the field around him.
- New intelligence system: New player progression and highly realistic AI behaviour allow complete freedom of movement in all directions and the complete absence of predictability and reliable control.
- Slide tackle: Tackle and control the ball with your feet, with a wall-crawling move implemented via a new physics system. Tackles can be performed in a multitude of situations, for example, by sliding the full length of the pitch or bringing the contact point on the ground to a braking movement in an attack.
- Precision passes: With the new tooltip for off-target passes, players have real-time feedback to accurately anticipate the position and movement of the ball as it's chipped out.
- Zonal marking: Players are now able to take up specific positions on the pitch and track the position of the ball before they even pick it up. Their intelligent positioning before receiving the ball is represented graphically on the centre of the pitch and is colour-coded: Bold red for marking the player's opposition, light-purple for marking the same player's teammates and flashing red for marking a team-mate with a 2v2.
- Match Engine: A true 360° view of the pitch is used to provide more visibility of the action taking place around the player, creating a more realistic-looking playing surface.
- Best-in-class pitch: A brand new grass pitch has been created, with true consistency in responsiveness and length and an improved pitch texture that noticeably shows the lines between the grass blades to make the pitch feel more like how it feels on grass.
- Motion-controlled AI: AI responsiveness has been improved, providing more diverse and more intelligent attacking patterns.
- Fighter jetpack: You can now take off and land on the pitch from inside the pitch boundary! Players are awarded 'Jet Balance' points when timed correctly, and get punished if they land in the wrong place. Fighter jets may need to land at the very far sides of the pitch to perform their manoeuvres.
- Sharing the goal: With new sharing, you can now

Fifa 22 For Windows

FIFA Soccer is the world's most popular soccer series and home to the World Cup. Developed by EA Canada in collaboration with renowned soccer league and national federation FIFA, the series is available on over 300 million homes worldwide. FIFA Soccer is a series that is loved by all, from the young to the most professional players. FIFA Football sets the scene for the action on the field with never-before-seen visuals and commentary by authoritative voices. See the world from an entirely new perspective as 12 recognizable teams from around the globe compete for the World Cup. A powerful engine, full of dynamics and fluid animations, allows you to experience everything from the

smallest, most intimate details to the most epic moments. Powered by Football™, EA SPORTS FIFA 22 brings the game even closer to the real thing with fundamental gameplay advances and a new season of innovation across every mode. Key Game Features: Unparalleled Player Intelligence - The most connected and intelligent system ever builds a complete player profile from every interaction, including dribbling and passing style, positioning, and timing. Authentic Movement - Players now react to challenges and opponents in a more intelligent way, making the difference between a winning and losing situation more pronounced. Vision Control - Players now move more independently, and have more access to positioning. The system was improved to recognize and react to a wider variety of defensive patterns. Fully Integrated Penalty System - With penalty kicks now seen from multiple angles, the system offers five different angles for each kick. The technique and angle of each kick are fully customizable. The kicks now include 5 animations each, and the penalty taker can make a pass to a teammate in the penalty area to create space for a shot at goal. FIFA Ultimate Team Back in the locker room, teams can build an ultimate squad from the best players from all over the world. Take the load off of your manager by choosing the best players available in FIFA Ultimate Team modes, including Confirmed Matches, Legacy Tournaments, Gameweek Challenges, FIFA Ultimate Draft, and much more. Pro Clubs Now your clubs can play together in official leagues, compete in the UEFA Champions League and UEFA Europa League, and play to win the FIFA Club World Cup. Whether your favorite club's playing in the UEFA or MLS, they'll play alongside other big clubs from around the world. Learn the Confirm Method and how it
